4. REVENUE AND DEBT COLLECTION MANAGEMENT

- **Sundry Debtors:**

Council's debtors consist of five main groups, namely:

- Provincial or Local government bodies for services rendered to or on behalf of these bodies,
- Ex-employees entitled to post-service benefits,
- Other entities by way of service delivery for which costs are to be recovered,
- Consumer debtors at Koopmansfontein for the rendering of water, sanitation and refuse services.

- Assessment Rates Debtors.

Matters reported below are in respect of debts outstanding in excess of 90 days on the effective reporting date.

- ***Provincial and Local Government - Department of Roads***

The roads agency account is behind with their subsidy payment (R648 750) in terms of the prescripts of the service level agreement which will be followed up after the submission of monthly report to them on or before 15th of each month.

- ***Post-Service Benefits***

Debtors are being managed in terms of the approved credit control policy. No significant difficulties are evident at present. Management of these debtors has improved with the aggressive application of the credit control policy.

- ***Sundry Debtors***

No difficulties are experienced due to the fact that strict credit control procedures are applied in terms of Council's Credit Control Policy. The only outstanding debts reflected for more than 90 days as at 31 March 2011 is Business Connexion R1000.00, Department of Safety & Liaison R1 186.19, SALGA R26 142.12 and H P O Duvenhage R1 783-58 (requested road to be bladed). HPO Duvenhage's account was handed over for collection.

Debts are continuously monitored and reviewed and adequate controls are in place according to approved policies.

- ***Water Service Debtors – Koopmansfontein***

The supply of water services at Koopmansfontein started in December 2004 and the first account to consumers was submitted in February 2005. About 90% of the people have been registered as indigent and therefore receive the 6kl free basic water services as per Council's indigent policy.

Most of the residents' water consumption is well managed within the 6kl free basic water allocation. The outstanding debtors for more than 90 days will be dealt with in terms of the approved Debt Collection Policy of Council whereby the water consumption will be restricted to 6kl of water only until such time that the full outstanding debt has been settled. The outstanding debt that is in the 90days + zone for the month of March 2011 is R777.36

- ***Sanitation and Refuse Debtors – Koopmansfontein***

The sanitation and refuse removal services started on 01 July 2010. Most of the sanitation and refuse services are well managed. The outstanding debtors for more than 90 days will be dealt with in terms of the approved Debt Collection. The outstanding debt that is in the 90days + zone for the month of March 2011 is R292.61 including VAT.

- ***Property Rates***

Council has adopted a Property Rates Policy which has also been implemented as from 01 July 2009. The challenge being experienced due to the many subdivisions of property is that we have difficulty in obtaining addresses to which statements need to be posted. The issue is being addressed. Revco Revenue Consulting (PTY) Ltd has been appointed on 01 November 2010 to assist with data search and verification of all debtor information and collection of outstanding debt as from 01 July 2009.

As progress is made, information will be reported on as received from Revco Revenue Consulting (PTY) Ltd. To date Revco Revenue Consulting has forwarded the correct address details of property rates debtors. Outstanding debt that is in the 90days + zone amounts to R164 587.53 as at 31 March 2011.

Supply Chain Management:

Although council adopted a new procurement policy effective from 1 January 2008 a number of issues still impact negatively on the effective implementation of the mentioned policy. The following are some of the issues that still need attention in order to ensure full compliance as stipulated in the policy:

- The development and implementation of a new centralized procurement procedure has started and is in line with the SCM policy. Monitoring is on an ongoing basis and as problems arise, they will be dealt with.
- Amendment and procedures with regard to the tender committee system (Specification, Evaluation and Adjudication Committees) still needs attention. Monitoring is on an ongoing basis and as problems arise, they will be dealt with.
- Putting systems in place to monitor and report on supply chain management as required per approved policy has started as from 1 April 2008. Monitoring is on an ongoing basis and as problems arise, they will be dealt with.

As Council reserves its right to maintain oversight over the implementation of the Supply Chain Management Policy and is empowered to make Supply Chain policy within the ambit of the applicable legislation, the following is hereby reported as stipulated in the SCM policy for the period March 2011:

Internal Provisions:

Council has internal liabilities related to personnel bonuses, performance bonuses, leave, post employment health care, pension and long service awards provisions. These liabilities are adequately provided for and are included under Provisions in the Statement of Financial Position and these provisions are properly backed by cash reserves where applicable.

ASSET AND RISK MANAGEMENT

Insurance:

All Council assets are adequately insured with Alexander Forbes over a 3 year period. The insurance portfolio / costing was reviewed and implemented in July 2010.

Asset Inventory:

TAT I-Chain Asset Management System has been implemented. There are still challenges regarding the printing of inventory lists that needs attention. The annual asset stock take will take place during the last week of May 2011.

Information Backup:

All shared data on the internet system (*O & P drives only*) is backed up on the server with a further daily tape backup kept on the premises. System users are responsible for ensuring that data backup and maintenance is carried out with regard to their specific usage. General ledger and associated financial system data is backed up on the network server tape system.

The implementation and use of the new "e-Venus" financial system has started on 1 July 2009 with minor hiccups, but the problems identified are being attended to. A daily backup is done as well as a day end procedure to integrate the day's transactions.

A monthly calendar (on the last working day of each month) and financial (a few days after month end to accommodate financial transactions pertaining to the month closed) backup and integration including closing of votes and opening thereof in the new month is done.

The Blueprint System has been fully implemented. The system is an aid to managing projects. Monitoring is enhanced and implementation of projects is accelerated. Because each project has been allocated with different vote numbers, each manager will be responsible for monitoring and reporting on the progress of projects within the ambit of his/her department. This is a total deviation as to the management of projects in the past.

Council operates a pool of 20 vehicles as part of its routine activities.

11. INTERNSHIP PROGRAMME

As per National Treasury regulations, five Finance Interns were appointed (four on 15 February 2010 and one on 01 March 2010). The aim of the programme is to capacitate Finance graduates to eventually be able to fill CFO and other financial posts in municipalities. Their appointment is for a period of 24 to 36 months depending on completion of the programme.

They are being assisted in completing a personal development plan (PDP) and a Portfolio of Evidence (POE) as per NT guidelines. Meetings are held regularly with Interns to discuss their progress and problems they may experience.

A training schedule has been drawn up. It is envisaged that they be exposed to all functions within a municipality.

All Interns have assisted with the year end process for the 2009/2010 financial year. They have assisted with the scheduled asset stock take.

Various financial reconciliations have to be done on an ongoing basis and the Interns have been given this task with various personnel responsible for these reconciliations, as their mentors.

All Interns are attending the Municipal Finance Management Programme and they have completed the MFMA DVD learning programme.

CONCLUSION

According to the results presented above for the period ending 31 March 2011, Council maintains a healthy financial position with respect to its cash and reserves.
